Metropolyst Project

Extra text appears here with custom size/weight

This presentation demonstrates custom layout settings:

| Option | This Presentation | Default |
|-----------------|--------------------|---------|
| aspect-ratio | "16-9" | "16-9" |
| align | horizon | horizon |
| footer-progress | true | true |
| footer | [Metropolyst Demo] | none |

The footer on the left shows custom content instead of being empty.

Notice the header above is **larger and bolder** than default:

| Option | This Presentation | Default |
|---------------|-------------------|-----------|
| header-size | 1.4em | 1.2em |
| header-weight | "bold" | "medium" |
| footer-size | 0.9em | 0.8em |
| footer-weight | "medium" | "regular" |

Look at the footer below to see the difference!

The title slide uses custom typography:

| Option | This Presentation | Default |
|-----------------|-------------------|-----------|
| title-size | 1.8em | 1.3em |
| title-weight | "bold" | "medium" |
| subtitle-size | 1.1em | 0.9em |
| subtitle-weight | "medium" | "regular" |
| author-size | 0.9em | 0.8em |
| logo-size | 2.5em | 2em |

Section dividers (like the one before this slide) use:

| Option | This Presentation | Default |
|----------------|-------------------|-----------|
| section-size | 1.8em | 1.5em |
| section-weight | "bold" | "regular" |
| focus-size | 2.0em | 1.5em |
| focus-weight | "bold" | "regular" |

The next slide is a focus slide demonstrating these settings.

**Focus slides use custom size (2.0em)
and weight (bold)**

Metropolyst uses a **cascading color system**:

1. Set accent-color as the base color
2. Other options default to auto (inherit from accent-color)
3. Override specific options for different colors

This presentation uses **blue** as the base accent (#2563eb).

Each accent element has a custom color:

| Option | Color | Where Used |
|----------------------|--|------------------|
| accent-color |  Blue | Base color |
| hyperlink-color |  Purple | Links |
| progress-bar-color |  Green | Progress bar |
| alert-color |  Red | Alert text |
| line-separator-color |  Blue | Title slide line |

Hyperlinks use purple: [Visit Typst](#)

Alert text uses red: **This is important!**

Progress bar at the bottom uses green with light green background.

The title slide's horizontal line uses blue (line-separator-color).

Complete Font Options List

| Parameter | Default | Description |
|-----------------|----------------|------------------------|
| header-font | ("Fira Sans",) | Header font family |
| header-size | 1.2em | Header font size |
| header-weight | "medium" | Header font weight |
| footer-font | ("Fira Sans",) | Footer font family |
