Layout Configuration

Layout Options

This presentation demonstrates custom layout settings:

Option	This Presentation	Default
`aspect-ratio`	`"16-9"`	`"16-9"`
`align`	`horizon`	`horizon`
`footer-progress`	`true`	`false`
`footer`	`[Metropolyst Demo]`	`none`

The footer on the left shows custom content instead of being empty.

Font Configuration

Notice the header above is **larger and bolder** than default:

Option	This Presentation	Default
header-size	1.4em	1.2em
header-weight	"bold"	"medium"
footer-size	0.9em	0.8em
footer-weight	"medium"	"regular"

Look at the footer below to see the difference!

Title Slide Fonts 🎨

The title slide uses custom typography:

Option	This Presentation	Default
title-size	1.8em	1.3em
title-weight	"bold"	"medium"
subtitle-size	1.1em	0.9em
subtitle-weight	"medium"	"regular"
author-size	0.9em	0.8em
logo-size	2.5em	2em

Section & Focus Slide Fonts 🎨

Section dividers (like the one before this slide) use:

Option	This Presentation	Default
section-size	1.8em	1.5em
section-weight	"bold"	"regular"
focus-size	2.0em	1.5em
focus-weight	"bold"	"regular"

The next slide is a focus slide demonstrating these settings.

Focus slides use custom size (2.0em) and weight (bold)

Color Configuration

Color System

Metropolyst has two types of configurable colors:

Accent colors — inherit from `accent-color` when `auto`:

- `hyperlink-color`, `line-separator-color`, `progress-bar-color`

Background colors — have independent defaults:

- `header-background-color` (dark teal #23373b)
- `focus-background-color` (inherits from header background)

This presentation uses **blue** (#2563eb) as the base accent.

Color Options Demonstrated 🎨

Each accent element has a custom color:

Option	Default	This Presentation	Where Used
`accent-color`	■ Orange	■ Blue	Base color, alert
`hyperlink-color`	`auto`	■ Purple	Links
`progress-bar-color`	`auto`	■ Green	Progress bar
`line-separator-color`	`auto`	■ Blue	Title line
`header-background-color`	■ Dark	■ Green	Header
`focus-background-color`	`auto`	■ Green	Focus slides

Color Examples in Action

Hyperlinks use purple: Visit Typst

Bold text is dark like normal text. Alert text uses the accent color.

Progress bar at the bottom uses green with light green background.

The title slide's horizontal line uses blue (line-separator-color).

The **header** and **focus slides** use dark green backgrounds.

Cascading Font System

Like `accent-color`, the `font` parameter cascades to all elements:

Parameter	Default	Description
`font`	`("Fira Sans",)`	Base font for all elements
`header-font`	`auto`	Header font (defaults to `font`)
`footer-font`	`auto`	Footer font (defaults to `font`)
`title-font`	`auto`	Title slide font (defaults to `font`)
`section-font`	`auto`	Section slide font (defaults to `font`)
`focus-font`	`auto`	Focus slide font (defaults to `font`)

Set `font` once to change all fonts, or override individual elements.
