EPI

Overview

What the EPI Brand Sets

The EPI brand applies these settings automatically:

- **Font:** Roboto
- **Accent color:** EPI red (#C01F41)
- **Header background:** EPI dark blue (#063957)
- **Progress bar background:** Auto (derived from accent color)
- **Page counter:** Disabled

Combining with Overrides

You can extend the brand with additional settings:

```
#show: metropolyst-theme.with(
  ..brands.EPI,
  footer-progress: true,  // Add progress bar
  font: ("Fira Sans",),  // Override the Roboto default
)
```

Creating Your Own Brand

Define brands as dictionaries:

```
#let my-brand = (
  accent-color: rgb("#0066cc"),
  header-background-color: rgb("#333"),
  footer-right: none,
)
```
